Holden's Alterative and
TONIC MIXTURE,
IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood
Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution
By its use the appetite becomes regular and good, digestion perfect sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use
By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine
Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it
It contains no poisonous ingredient, and cannot in any case do harm
Home Testimony.
We, the undersigned, have ourselves or in our families, used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, where he Patent may be presented about six weeks earlier he continues to forward them free of expense—to prepare Caveats Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries
By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents They also have the advantage of verbally explaining their inventions and of consulting in respect to them, matters, in power of paramount importance in order to obtain correct specifications and claims This experience of sixteen years practice, an extensive collection of patent work decisions &c on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment

John S. Sayward,—Editor

MONDAY, OCTOBER 1, 1849.

☞ The following extract is from a business letter received by a friend from a gentleman in Havana, relating to the reported outbreaks in the Island of Cuba

"There is at present considerable excitement here in consequence of the President's proclamation to prevent any expedition being fitted out against the would be peaceable inhabitants of this Island, also that within these few days we have news from the interior stating that a revolt had broken out in one of the regiments stationed at Principe In consequence the Captain General here has sent off 3000 troops by land and water per steamer to quell the same, fearing perhaps, that the troops at St Jago and Trinidad have turned rebels also

You will perhaps recollect, last year in writing to you on the subject of a change of government here, I gave as my opinion the time had not yet arrived, but am now inclined to think we are on the eve of a revolution, and which, perhaps in a few weeks may result in an entire change of Government, but how this change may be brought about is difficult to say, at all events I hope it may be commenced *right* and end without much blood shed The present state of excitement tends rather to have some influence on future engagements, as almost every one is in some doubt how this business is to terminate We all at present have to be very careful in our remarks, as the foreigners and Creoles are looked upon with suspicion, and probably spies are on the lookout to see who can be picked, but for my part have no fears of my personal safety We are too near the United States, and the recent circumstances of the abduction of Garcia at as Rey at New Orleans has satisfied the Government here that the Government of the United States will be respected

He then goes on giving a detailed account of the abduction, stating that the Captain General received information from the Spanish Minister at Washington that the abduction case of Rey was getting to be a serious affair, and it would be better to give him up without loss of time.

This information may be relied upon, coming as it does from a person well qualified to judge of the state of affairs

Report on Manufactures.

To the Trustees of the P A Society —

The standing committee on Manufactures respectfully report that at the annual Fair of the P A Society yesterday at Levant village, there was a very fine show of manufactures articles, particularly in the department of the household arts, so much that while the men were engaged in the field the barn, the shop, the women, have been well employed at home The attractions of the Fair were greatly enhanced by the numerous specimens of skill of the needle,—the loom the dairy &c which graced the church in which they were exhibited Nothing in a beautiful could be offered except the presence of those who wrought them, and most fortunately there were many of them present to honor and dignify the occasion But your committee have too many facts to deal with now for them to follow out the thoughts which tempt singly other themselves for acceptance in this report

We intended in this report, to give the name of every one who exhibited articles at the Fair, and to describe those articles at length, and to speak of their distinctive merits, but this we shall not now be able to do and can only for ourselves, and in behalf of the society thank all those who aided in giving interest to the occasion, and to request of the good women of our country to continue to assist, by their labors, the great objects of our society

All of which is respectfully submitted

J S SAYWARD, Chairman.

LIVERPOOL, Sept 16 — Business not so active as last week

Cotton steady, moderate sales Little change in prices

The Grain market rather firmer within the last few days and holders begin to anticipate that they have reached the lowest point, at least for some time to come For cured provisions of all descriptions there is a moderate demand, and prices generally are well supported Meals are in request and prices sustained The accounts from the manufacturing districts are less encouraging Nevertheless, a healthy trade prevails Our reports from the continent steady, but the business going forward is limited Railway stocks are very dull There is still a plentiful supply of money, and first rate bills can be discounted on easy terms Secondary and inferior descriptions, cannot find ready accommodation

The travels of bread stuffs, here and in London, are large Nevertheless, the trade is getting firmer, owing to unfavorable advices regarding the potato crop In the early part of the past week, wheat, both here and in London, receded, and flour was sold on lower terms — At the market held here yesterday, both wheat and flour had a tolerably active demand, but there was very little Indian corn offering, as many holders had withdrawn their samples in the hope of obtaining increased prices The value of western canal flour, is now quoted at 22s 6d, to 23s for prime quality, and inferior, 18 to 19s. Baltimore and Ohio are sold at 21s per bbl White Indian corn, 27s 6d, to 28s, and mixed and yellow, 26s to 27s per quarter American wheat is quoted at 5s, to 6s 3d per bushel of 70 lbs

The imports of cured provisions since our last report, are very small Beef has been in fair request at unchanged prices, but the transactions in bacon is limited There is not much low priced bacon in the market, and for prime qualities the demand is limited Hams sell to a fair extent at steady rates, but the inquiry for shoulders is limited Lard is in steady request The sellers complain that the consumption has fallen off

Prices of iron remain about stationary Manufactured iron has been in fair demand, and the makers have been rendered uncertain and to some extent diminished by the ravages of the cholera, in the iron districts of Staffordshire and South Wales The latest accounts continue very unfavorable

The market for English securities has been steady, but at the same time little business has been done

Weather cooler Harvest crops almost all got in. Potato yield large, and enough will be saved to offset the decreased quantity The cholera is spreading Deaths by cholera in London, on the 11th, 475, on the 12th, 361 — In Scotland 159

A letter from Louis Napoleon to his friend Ney, has been published in the Moniteur and virtually acknowledged by the Cabinet It makes some talk in political circles, and the following is an extract —

"The French republic has not sent an army to Rome to put down Italian liberty, but on the contrary to regulate it by preserving it against its own excesses, and to give it a solid basis, by replacing on the pontifical throne the prince who from the first had boldly taken the lead in all useful reforms I learn with pain, the benevolent intentions of the holy Father, as well as our own action, remain sterile in presence of hostile passions and influences

The desire of certain persons appears to be, to make proscription and tyranny the basis of the Pope's return Say to Gen Rostolan from me, that he is not to permit, that, under the shadow of the tricolored flag, any act be committed which can lower the character of our intervention

"Thus sum up the restoration of the Pope's temporal power — a general amnesty, the reorganization of the administration, the code Napoleon, and a liberal government

A cabinet council was held on the 11th, and Gen Rando attended, by order, and being called into the room where the ministers were sitting, was formally informed that he was appointed to the command of the army of Italy — He then received his instructions, which amount to this—that, should the Pope not come to Rome he is to carry out with vigor the line of conduct specified in the President's letter Gen. Rando started the same night for his new command. He is a cavalry officer, and has been a general of division only since 1847 His rise has been unusually rapid He is a friend of Gen Cavaignac, and Col Charras

Letters from Rome, of the 5th inst, mentions that the crisis there is becoming more menacing and a rupture more imminent It was considered probable that the Pope would end by placing himself under the Austrian flag in the Legations It is stated at Gaeta, that, had the President's letter been officially published, the corps diplomatique there would have thought it their duty to protest against it It was also rumored at Gaeta, that Russia would take upon itself the Roman loan.

Letters from Naples of the 4th, announce the arrival of the Pope at Naples, at 4 o clock, P M, the same day

A TRIBUTE

TO THE MEMORY OF JOHN DENNY KELBY

Our brother has departed! Once of old
He walked with us in learning's pleasant ways,
But death has come, relentless, stern and cold,
To win him from us in his early days,
And tears must flow from eyes unwont to weep,
Above the grassy couch, whereon he lies asleep

A buoyant spirit in his bosom stirred,
A spirit light as summer's odorous wind,
His tongue loved never an unkind word
But moved to accents soft sincere and kind,
For gentleness and guileless sympathy
Abode within his heart, in closest company

A genial fancy oft his lips enwreathed
With blithesome words provoking sunny smiles,
While tenderness its heartful utterance breathed
Through all his "quips and cranks and wanton wiles,"
No poisoned barbs his wits keen arrows knew,
They left no festering wounds, in breasts where to they flew.

His soul was malcontent with grosser things,
That gleam but briefly on us ere they flee,
He sought the joy enduring beauty flings
Around the heavenward paths of Poesy
And through this fairer realm his footsteps toilee
Toward cloudless heights sublime, unchanging unassoiled

And thence he lifted up his earnest eyes
To glories grander than the world may know,
While lofty aspiration bids him recognize
A nobler life than our swift hours below
Till Earth's poor splendors faded far away,
As starlight pales and fairts, before the dawning day

And God the blessing of a smiling face
Upon the conflict of his spirit shed,
While Penitence brought Love and Faith and Grace
Unto the soul whence wilful Guilt had fled
Not long had he to labor in the strife,
Ere he was summoned, through the shadowy vale, to life

Our brother has departed who of old
Path walked with us in learning's fragrant ways
Death found him faithful, undismayed and bold,
Death robbed us of him in his brightest days
Weep then ye mourners, weep, but not for him
Who waits to welcome us to glories never dim!

SEE THE RAINBOW.

THE Rainbow Cooking Stove represented by cut as above with out doubt is one of the best cook Stoves ever offered to the public We can not here enumerate all the minutiae of its construction nor is it necessary those wishing to buy a cook Stove can satisfy themselves by seeing it what is the prospect for a stove and, appurtenances attached to it It has two full ovens distinct from each other,—roaster in front where meats or fowl are roasted in a free circulation of air to the good old fashioned way by turning on a spit before an open fire This is a valuable advantage (possessed by no other stove) we will recommend it to all good housewives that are back over aching at those spits from in the city they bake perfectly The broiling apparatus is fine and all scent passes the fire the flues leading the steaks expended to a reduction of fresh air The fire passages are very deep the non conducting cement at the top and bottom of the oven protects the parts from too intense heat. It has been tried and we know it to excel any stove we have in the market—the castings are very heavy and strong— We expect to take all the medals and awards of all the Fairs for the Rainbow Should be happy to show it to those who will call on us

THE Rainbow Cook ng Stove represented by cut as above with out doubt is one of the best cook Stoves ever offered to the public We can not here enumerate all the minutiæ of its cons truction, nor is it necessary, those wishing to buy a cook Stove can satisfy them selves by seeing it what is the prospect for a store and *ornam n ces* attached to it It has two fine ovens distinct from each other—a roaster in front where meats or fowl are roasted in a free circula tion of air, in the good old fash ioned way by turning on a spit, bef re an open fire This invaluable ad vantage (possessed by no other stove) will recommend it to all good house wives The back oven is and those using them in the city pronounce them perfectly The broiling apparatus is fine and all scent passes through the flues bay ing the steaks exposed to a regula tion Fire hair Their passages are very deep the non conducting cement at the top and bottom of the oven protects the parts from the intense heat It has been tried and we know it to excel any stove we have in the market—the cast ings are very heavy and strong—We expect to have all the medals and awards of all the *Fairs*, for the Rainbow Should be happy to show it to those who will call on us

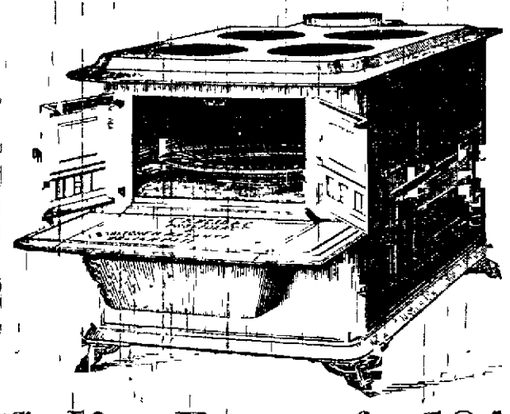
COOKING STOVE,

The Greatest Invention of the Age.



A New Pattern for 1849.

AMONG the list of competitors THIS STOVE for its superior advantages, took the first premium at the American Institute, city of New York, at the Hartford County Fair Connecticut, at the Worcester Co Fair Massachusetts, and Franklin Institute Philadelphia

Our very important improvement in this Stove is the patent *Broiling Chamber* (see cut) by which broiling is done to perfection in from four to six minutes retaining its juices, and giving steaks the same fine flavor and pleasant tasting of the best charcoal broil (it being equally well adapted to roasting boiling frying) with the draft to the fire arch passing through the broiling chamber, and effectually carrying off the scent which usually arises from broiling. The broiling department is always ready, it being operated by the same fire required for other purposes, and not interfering with any other part of the cooking

The flues being the entire width and passing directly around the oven, applies the heat to all parts alike The oven for Baking is not equalled by any Stove in use *I warrant it as above for thirty day*

For sale Wholesale and Retail by

HENRY A WOOD & CO.,

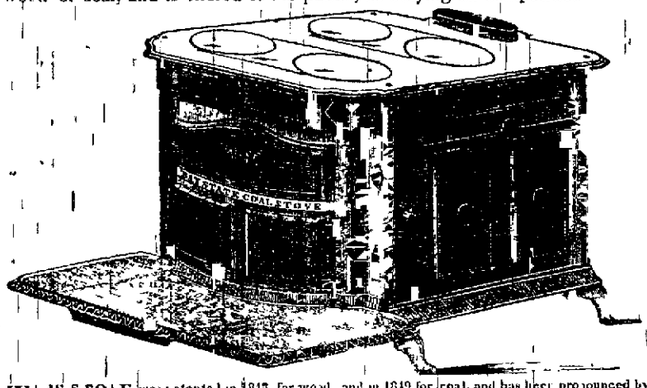
Nos. 1, 2, & 3, Broad Street.....BANGOR.

THE BEST STOVE NOW IN USE.

THE BAY STATE

COOKING STOVE,

Is unsurpassed by any other Stove now in the Market being fitted for wood or coal, and is offered to the public, as defying all competition



THIS STOVE was patented in 1848 for wood and in 1849 for coal, and has been pronounced by the competent judges, the most beautiful and perfect in its appearance, and the best Cook Stove in the market The castings are heavy smooth and beautiful, the joints are fitted with great perfection, Oven doors are very large, and very nearly square, and will take in four middling sized pie plates The Stove is so arranged that the wood lays and burns upon the ashes, instead of a grate, by which means the fire can be preserved for a long time, and as the oven projects under the fire chamber, the fire and hot ashes produce a beautiful heat over the front of the oven, and causes the whole oven to heat equally It has a beautiful apparatus for toasting and broiling by which means all the smoke is taken off into the stove

The Coal Stove has a cylindrical, or oval cylinder, lined with soap stone, or fire brick, and completely the best form of fire chamber in which to burn coal

So confident is the subscriber, in the superiority of the above Stoves over all others in the market that he will after a fair trial of thirty days, refund the money and all expenses, if it does not meet the expectations of the purchaser

The largest most selected and most desirable Stock of Air Tight, Cooking, Office and Parlor Stoves, in this market Wholesale and Retail Also, Cooking Ranges and Hot Air Furnaces, at prices to suit the times

On hand and will make a large assortment of LEAD PIPE CASTINGS, COPPER and TIN WARE, and all other articles usually found in establishments of the kind

N B. COPPER SHEET IRON and TIN WARE manufactured, as above, and by the best of workmen

FITS FITS FITS

Dr Townsend, not having tested your Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits I have tried almost every thing for her, but without success, at last although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and we are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming robust and hearty, for which we feel grateful Yours, respectfully,

JOHN BUTLER, Jr

Mr Charles A Brown, of Dover, Mass, states, that his wife one of the best Physicians in the State, says that he has been much benefited by the use of the Vegetable Extract, and that he unhesitatingly recommends it in every case of Epilepsy which comes under his knowledge

Curtis E Mayhew, Esq, formerly Postmaster in Lime Mills, Schuyler Co, Pa, now living in Tioga Co Pa, states that for many years past he has been sorely afflicted with Fits, and he is now happy to state that a perseverating use of Dr Townsend's Vegetable Extract has restored him to sound health, being entirely freed from the worst of all diseases

Mr Stephen H Pratt, corner of 5th Avenue and Twenty sixth Street, New York states that Mr Charles E Doughtor, a member of his family, has been so severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business. Having used Dr Hart's Vegetable Extract [says Mr P] he was soon restored to perfect health, and left this city for the State of Ohio to resume his business

Rev Mr Smith, Rector of St Peter's Church, Spotswood, New Jersey, who has been afflicted with Epileptic Fits for more than twenty years, states that he has used Dr Hart's Vegetable Extract, and his health has been so much improved that he hopes by Divine blessing to have no more Fits

EPILEPTIC FITS.

For twenty seven years and six months, cured by the use of this truly invaluable medicine

Read the following undeniable testimony of the son of Wm Stocker, Esq, of Philadelphia, affected with Epileptic Fits for twenty seven years and six months—After travelling through England, Scotland, Germany, and France, cannot find the least symptom of Epilepsy or Fits, after using four medical, medical treatment and advice from thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever, and was cured by using

HART'S VEGETABLE EXTRACT.

I have spent over three thousand dollars for medicine and medical attendance I was advised to take a tour to Europe with his son, which I did I first visited England I consulted the most eminent physicians there in respect to his case, they examined him and prescribed for principally Fits, but he grew worse instead of any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians, and the most that I received was their opinions that a hopeless case was hopeless, and

POSITIVELY INCURABLE.

I accordingly of England, travelled through Scotland, Germany and France, and returned home in the month of November, will my son as far from being cured as when I left I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, having your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by use of Hart's Vegetable Extract, all done he was restored to

PERFECT HEALTH

His reason, which was so far gone as to until him for business, is now as good as ever, with the prospect now before him of life, health and usefulness He is now 28 years of age, and 27 years 6 months of this time he has been afflicted with his most dreadful of diseases, but thank God is now enjoying good health

Now, sir, faith without works I don't believe in—To say I shall be overgrateful to you is one thing, and as I have cost you over hundred dollars, I have no doubt you will think it worth another and quite a different thing. Take debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance Yours very respectfully

(Signed) WILLIAM SECORE.

THE TIME IS NOT FAR DISTANT

When thousands who are now trembling under the hundred this dreadful disease, and fearing that every attack may prove fatal, will find permanent relief and be restored to new life, by using this celebrated medicine!

Read the following undeniable testimony of the son of Wm Stocker, Esq, of Philadelphia, affected with Epileptic Fits for twenty seven years and six months—After travelling through England, Scotland, Germany, and France, cannot find the least symptom of Epilepsy or Fits, after using four medical, medical treatment and advice from thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever, and was cured by using

HART'S VEGETABLE EXTRACT.

I have spent over three thousand dollars for medicine and medical attendance I was advised to take a tour to Europe with his son, which I did I first visited England I consulted the most eminent physicians there in respect to his case, they examined him and prescribed principally Fits, which cost me about hundred pounds, pocketed by the physicians, and the most that I received was their opinions that a hopeless case was hopeless, and

POSITIVELY INCURABLE.

I accordingly of England, travelled through Scotland, Germany and France, and returned home in the month of November, will my son as far from being cured as when I left I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, having your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by use of Hart's Vegetable Extract, all done he was restored to

PERFECT HEALTH

His reason, which was so far gone as to until him for business, is now as good as ever, with the prospect now before him of life, health and usefulness He is now 28 years of age, and 27 years 6 months of this time he has been afflicted with his most dreadful of diseases, but thank God is now enjoying good health

Now, sir, faith without works I don't believe in—To say I shall be overgrateful to you is one thing, and as I have cost you over hundred dollars, I have no doubt you will think it worth another and quite a different thing. Take debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance Yours very respectfully

(Signed) WILLIAM SECORE.

EXTRAORDINARY CASE

"Truth is stranger than Fiction."

The following letter surpassing one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and exalted reputation —

SIDNEY New Jersey, July 12 1848

DR A B CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about twenty years I had been suffering from Dyspepsia, every year the symptoms become worse, nor could I obtain permanent relief from any course of medical treatment whatever Multiply designs were skilful and excellent now, but have their prescriptions failed About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my parochial duties, I became subject to severe Chronic Rheumatism, which for years after your cannot me indescribable anguish In the course journey was the skill of my physicians sometimes afforded me great relief but the relief was only temporary, Farther in the winter of 1845 and in consequence of preaching a great deal in my own and various other churches in the region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate surcease of my pastoral labors My nervous system was in a state of utter prostration and as my Bronchitis became worse so also did my Dyspepsia and Rheumatic affections—thus evincing that these disorders were connected with each other through the medium of the Nervous System My sufferings were indeed severe and I had no prospect other than being entirely laid aside from the discharge of those duties and the performance of the [illegible] which my soul has ever found the highest of her joys.

But reasoning from effect to cause I concluded that the Nervous System must be reached, before any I could be relieved of my obtruding relief from these most distressing maladies In the whole pharmacopœia there seemed to be no remedial agent which could reach and recuperate my Nervous System, every thing that I had tried for this purpose had completely failed At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID This was in June, 1846

TO MY GREAT ASTONISHMENT, IN TWO DAYS MY PERSONAL STRENGTH, I AGAIN DARE I WAS ENABLED TO RESUME MY PASTORAL LABORS AND HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS, AND MY RHEUMATIC AFFECTION ALSO SUBJECT TO THE CALL MY HOME permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract My Dyspepsia has never returned, the Rheumatism once in a while visits me but not severely, and is easily arrested and is manifestly being driven from my nervous system and my Bronchial affection is entirely cured Such is the wonderful and happy results of this experiment

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them, WITH MARVELOUS RESULTS, I BELIEVE IN EVERY CASE

I am, dear sir, very respectfully yours

ROBERT W LANDIS

N. H. DOWNS'

Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

IS the most effectual remedy in the world, for Colds, Coughs Whooping Cough Croup or Quinsy, Asthma Pain in the Side or Stomach, and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable and is by far the most effectual medicine known, for all diseases affecting the LUNGS OR PULMONARY ORGANS

Its effect upon the patient is most marked, and differs from that of most medicines recommended for the same complaints, in the following particulars

1st—It never irritates the organs, but soothes and [illegible] over them up the cough, leaving the [illegible] touched—but first loosens the cough, [illegible] the expectoration of spitting then removes the cause, eradicating it completely from the system, when as a matter of course, the cough ceases, and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a laxative effect and is a moderate cathartic We defy the world to produce a case of costiveness in invalids at but that in two or three days (the patient in the mean time having proper regard to diet) it will entirely remove it, and produce a healthy action of the bowels

3d—It does not produce a dryness of the skin but is a powerful promoter of insensible and sensible perspiration, thus expelling by the pores of the skin, those nauseous fluids and impurities of the blood, the retention of which in the system is the sure precursor of DISEASE SICKNESS AND DEATH

We do not pretend that DOWNS ELIXIR is a specific for all the ills that flesh is heir to, but we do say, and can confirm by incontestable evidence that for

CONSUMPTION

And all all diseases of the lungs, the liver, and the pulmonary organs, it has never failed—[illegible] HUNDREDS have been snatched from an untimely grave, and hundreds who delayed too long its use, have found in the advance state of their disease, that RELIEF SHOULD BE SOUGHT, which they had vainly sought from every other source

This INVALUABLE MEDICINE is highly concentrated and put up in 2 oz and 4 oz bottles, at fifty cents and one dollar per bottle, and each bottle warranted to contain more CURATIVE PROPERTIES than four bottles of any other vegetable, cathartic and pectoral bitter preparations of the day.

We have received hundreds of certificates of its wonderful cures, from every part of the country, many of which have been published and may be had gratis of any of our agents

important Discovery

GRAY HAIR can be restored to its original color, whether Auburn, Brown or Black Sandy, Light or Red Hair can be changed to a rich dark or black, and be made even the most natural looks, retaining the gloss and softness of the original Hair, by using O M Ballard's

Permanent Liquid Hair Dye.

Of one preparation, which is entirely different from all other preparations of Hair Dye, and before the public for the first time, all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and cut it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out

In short, from its peculiar delicacy of ingredients, and easy application it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade, from a white to a jet black It is now used to an incalculable extent, by persons who have premature turned gray, and others whose Hair is of no desirable color, which effectually restores it to a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble
